Conditions of sale

PRICES

Prices are charged at the rates ruling on the date of despatch.

QUALITY

The quality of all products in this catalogue is fully guaranteed. If any fault due to poor materials or workmanship should be found we will replace the goods at our own cost.

LOSS OR DAMAGE

All goods are consigned at our own risk, but this risk passes with the property to the customer on delivery. Consignees must notify both the carrier and ourselves in writing of any damage or loss within 3 days of receipt, or of non-receipt of goods within 14 days from the date of the advice note or invoice.

RETURNS

All goods returned should be accompanied by an advice note.

PACKING

Goods are packed in free non-returnable cartons or cases.

CARRIAGE

All goods except Oregon products will be despatched carriage free to all parts of the U.K.

DISCOUNTS

As shown on the enclosed discount sheet.

Saw files

A note on this section

Spear & Jackson offer an unbeatable selection of handsaws and backsaws to suit the needs and pockets of every user—whether tradesman or amateur.

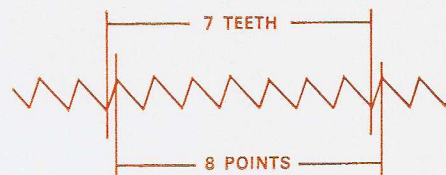

An outstanding feature is the full range of 'Black Prince' handsaws and backsaws which are enjoying ever-increasing success. Backed by extensive national advertising and editorial the 'Black Prince' range will continue to win important business. The saws manufactured by Spear & Jackson under the 'Black Prince' mark are coated with Du Pont Teflon*^S. They are the first products of their kind in this country.

The blades of all other Spear & Jackson saws are protected by a transparent, hard, dry lacquer which seals out rust.

All handsaws and backsaws are individually packed—the 'Double Century' models in strong

PVC sheaths, the others in attractively printed chipboard sheaths. Identification colours are as follows:

'Double Century'—Purple; 'Spearior' and 'Black Prince'—Red; 'Sovereign'—Green; 'Cockerill'—Blue.

Handsaw teeth are usually measured in 'points per inch'. When ordering, note that there is always one more point per inch than there are teeth per inch. e.g., 8 points = 7 teeth.

Spear & Jackson Craftsman Quality Handsaws

NEW R88 SPEARIOR

with 'hard-chromed' blade

With the new 'Spearior 88' Spear & Jackson has achieved the ultimate in handsaws. For here their unrivalled sawmanship is combined with a specially treated 'hard chrome' steel.

The very hard, abrasion-and-rust resistant blade provides greatly improved wearing qualities and cutting performance. Cutting tests on rosewood have shown that the teeth stay sharp up to three times longer than those of a conventional saw, cut faster because they are hand set and sharpened at a special bevel—only possible with a blade of this toughness.

The hardened and tempered chrome vanadium steel blade is taper ground and fully sprung and tensioned. The handle of tropical hardwood is

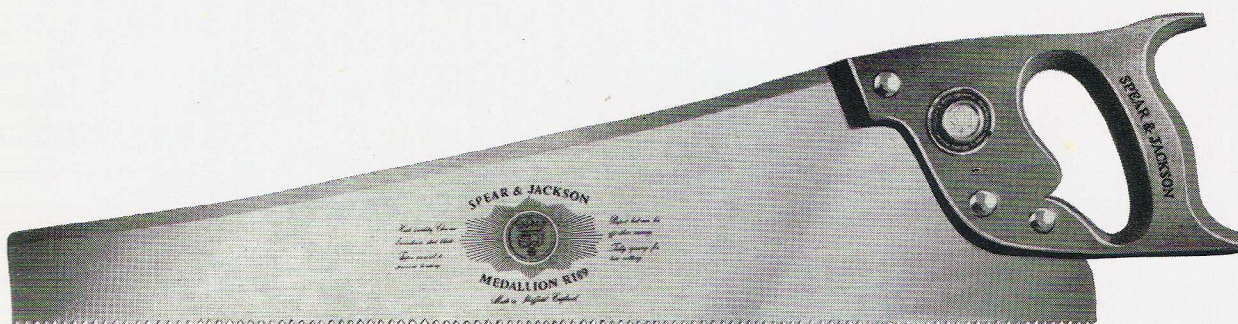

dowelled for extra strength and secured with solid brass screws.

Altogether a superb saw, beautifully balanced and a joy to handle.

Each saw is individually packed in an attractive PVC sheath, and supplied with a plastic guard to protect the teeth.

In boxes of five.

NEW R189 MEDALLION

A fine choice for the craftsman

The new 'Medallion' saw has all the features demanded by the craftsman. A hardened and tempered chrome vanadium steel blade, taper ground to prevent binding and fully sprung for true cutting. A beech handle designed for real comfort in use, dowelled for extra strength, and firmly secured with four screws. Teeth that will keep sharp yet set easily. Blade and handle accurately aligned and beautifully balanced.

In short, the new 'Medallion' is a saw that will never let you—or your customer—down.

In boxes of five.

G104HP. BLACK PRINCE HARD POINT

As above, but with aggressive, fast-cutting fleam teeth **induction-hardened** to give up to four times the normal efficient cutting life. **Cannot be file sharpened.**

Size	22"
Points	8
Code no.	01043
Price each	£2.25 45/-

In boxes of five.

G100 SOVEREIGN

For the keen amateur

- * The famous 'Sovereign' range brought up-to-date with this modern, straight-backed saw.
- * Based on a design by well-known industrial designer Brian Asquith which won a Design Centre Award.
- * Blade of high-grade, cold-rolled Sheffield steel (may be file-sharpened). Moulded to a virtually unbreakable and immovable handle of maroon polypropylene.

In boxes of five.

Other Spear & Jackson Saws

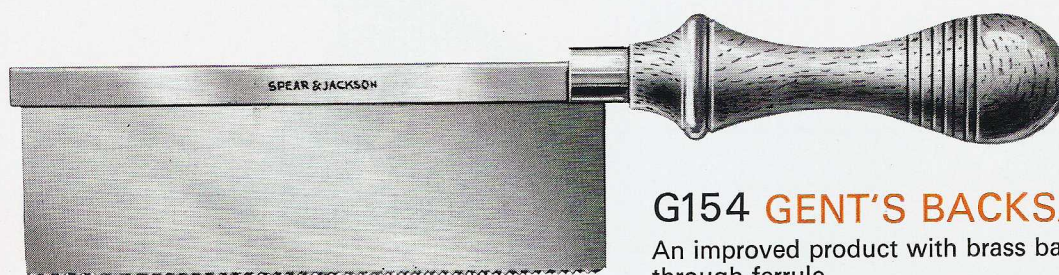

G288 NEST OF SAWS

A carded set of keyhole, compass and table blades of greatly improved quality and finish. Handle detail and assembly have also been further im-

proved. Double-cellulosed beech handle with lever screw.

Code no. 02880. Three blades and handle 17/6.

In boxes of five.

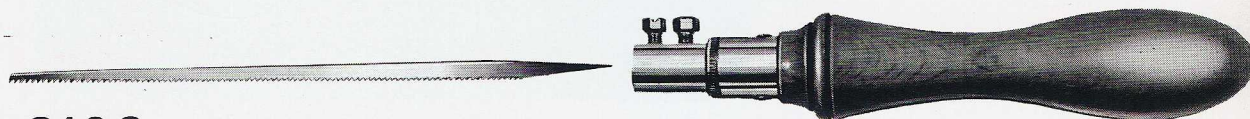

G154 GENT'S BACKSAW

An improved product with brass back and pinned-through ferrule.

Code no. 01540. Size 6". Price each 8/6.

In boxes of five.

G108 PAD SAW BLADES

Flat ground, bright finish

Size	8"	10"
Code no.	01088	01081
Price per ten	11/6	11/6

In packs of ten.

G103 PAD SAW HANDLES

Solid brass ferrule. Beech handle. Pinned through ferrule. Code no. 01030. 7/6 each.

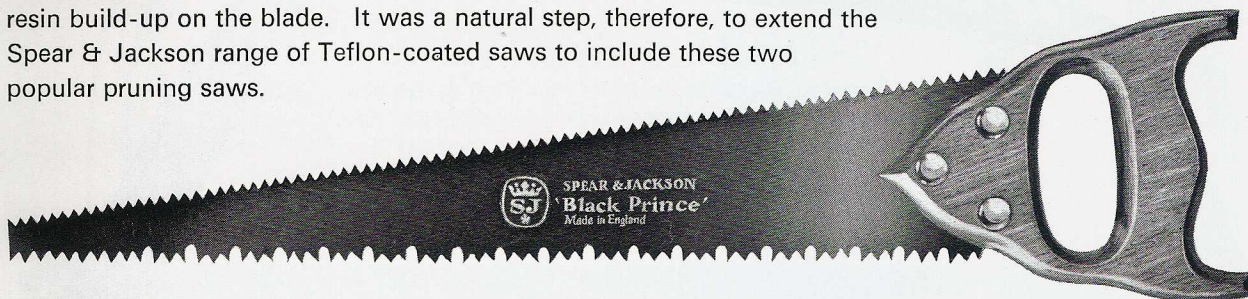

In boxes of five.

Spear & Jackson Pruning and Coping Saws

Now 'Black Prince' Pruning Saws!

Among the many advantages of TEFLON*^S when applied to saw blades is its ability to reduce friction and adhesion when cutting green timber, and to minimise resin build-up on the blade. It was a natural step, therefore, to extend the Spear & Jackson range of Teflon-coated saws to include these two popular pruning saws.

G14 PRUNING SAWS—DOUBLE EDGE

High grade steel blade with fused-on coating of TEFLON*^S. Polished beech handle. 16" blade.

Code no. 01400. Price each ~~19/6~~ *24/-*

In boxes of five.

G221 GRECIAN PRUNING SAWS

High grade steel blade with fused-on coating of TEFLON*^S.

Pistol grip. Natural beech handle. 14" blade. Code no. 00221. Price each ~~17/6~~ *19/6*

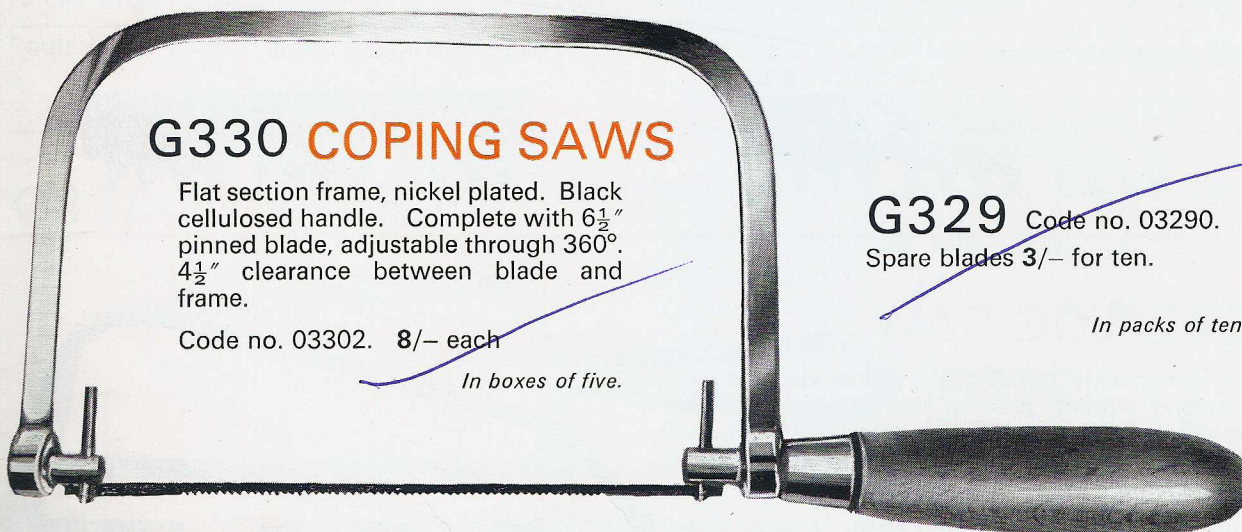

In boxes of five.

G330 COPING SAWS

Flat section frame, nickel plated. Black cellulosid handle. Complete with 6 $\frac{1}{2}$ " pinned blade, adjustable through 360°. 4 $\frac{1}{2}$ " clearance between blade and frame.

Code no. 03302. ~~8/-~~ each

In boxes of five.

G329 Code no. 03290.
Spare blades ~~3/-~~ for ten.

In packs of ten.

Spear & Jackson Log Saws

R38 LOG SAW

- * Tapered frame of oval section to give greater rigidity. With a finish of bright red, fused-on, plastic.
- * Uniquely styled handgrip and guard designed for extra comfort and safety. In grey polypropylene to contrast effectively with the red of the frame.
- * Toggle for quick release of tension when changing the blade.

Spear & Jackson R38 log saws are offered in three sizes—24", 30" and 36". All have the tapered frame shown above. All incorporate the important features listed, and all are supplied complete with the special 'Spearfast' blade. This blade cuts faster

because it cuts on both the push and pull strokes. Cuts more easily because it is rolled out extremely thin to minimise resistance. Stays sharp longer because induction tip-hardening gives it up to four times the effective cutting life of ordinary blades.

Size	24"	30"	36"
Code no.	03802	03803	03804
Price each	19/-	21/-	23/6

Handwritten: 25/-, 27/-, 2

24" and 30" in boxes of ten, 36" in boxes of five.

R382 SPEARFAST BLADES

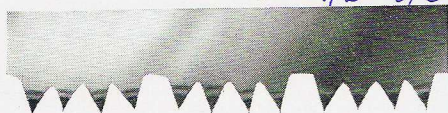

with induction hard-tipped teeth for longer life and easier cutting

All 'Spearfast' log saw blades are induction hard-tipped to give greatly improved working and wearing characteristics. Induction hardened after sharpening and setting, the teeth of these new 'Spearfast' blades will stay sharp up to four times longer than will those of ordinary blades.

Size	21"	24"	30"	36"
Code no.	03911	03912	03913	03914

R382 Spare blade—Standard	5/6	6/-	6/6	7/6
---------------------------	-----	-----	-----	-----

Handwritten: 7/6, 8/6

R383 WITH TEFLON*S COATING

Add to the special 'Spearfast' tooth formation and the induction tip-hardening a fused-on coating of TEFLON*S and you have a logsaw blade of exceptional efficiency. Reduced friction and a high degree of resistance to both rust and resin build-up.

Size	21"	24"	30"	36"
Code no.	04011	04012	04013	04014

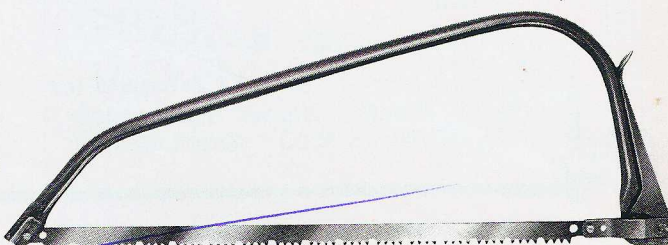

R383 Spare blade—Coated	8/6	9/-	9/6	10/6
-------------------------	-----	-----	-----	------

G42 LOG SAW

An increasingly popular 21" model designed for firewood cutting, pruning and other light tasks. Handy for the camper and caravanner. Round section frame with red enamel finish. Simple toggle action. Standard 'Spearfast' blade.

Code no. 04201. Price each **12/6**. *In boxes of ten.*

Spear & Jackson Handsaws

G328 SPEARIOR HACKSAW

Adjustable tubular frame, bright chromed. Die-cast handle. Supplied complete with 10" 'Neverbreak' blade. Will also take 9" and 12" blades.

Code no. 03280.

Individually boxed in attractive 3-colour carton 21/- each.

Spear & Jackson Circular Saws

PRESENTATION

Packing

Saws are individually skin-packed on to a three colour backing card.

Merchandising

An attractive wire dispenser (right) is available with stock orders for 'Black Prince' circular saws. Carries 6—5", 6—6", 3—8" and 1—10" saws. Stove-enamelled in white with red, gold and black printing. This compact unit, together with the individual backing cards, forms a visually exciting, hard-selling display that is bound to stimulate sales and speed up stock turnover. Code no. 05700.

R57 BLACK PRINCE

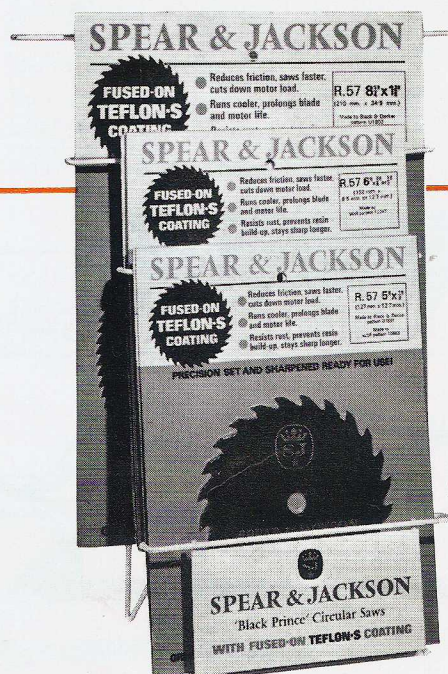

*Coated with Teflon*S*

For portable electric tools and bench machines. A complete range of small circular saws for the D.I.Y. enthusiast, school workshops, building trades and general factory use. A top-quality product with the built-in superiority that comes from over 200 years experience in steel and saw making.

TEFLON*S gives the following exclusive advantages:

- * Greatly reduces friction and cuts load on the motor by about a third.
- * Both blade and motor run cooler.
- * The sawing action is easier and faster.
- * The risk of damaging the blade through jamming is reduced.
- * Wet woods can be cut more easily without sticking.
- * There is no resinous build-up on the blade.
- * The blade is highly rust resistant.
- * Because of the cooler cutting and the lubricity of the saw teeth, there is longer life between sharpenings.

* *Du Pont's stratified, self lubricating, non-stick finish fused on to the blade at 400°C.*

Bushed circular saws should not be used with recessed collars.

Oregon Saw Chain and Accessories

Oregon Series '80' Saw Chain

World-wide sales and servicing have made Oregon the No. 1 choice of saw chain for timber harvesting. Each saw chain is precision made and there is one to fit every machine. Series '80' is the latest addition to the Oregon range. It offers up to 20%

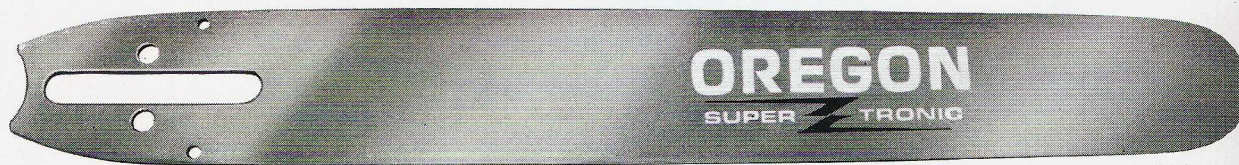

faster cutting, longer life and can be easily sharpened with the new top file plate. Spear & Jackson are main distributors of Oregon saw chain and can supply ex stock the accessories listed below.

Accessories

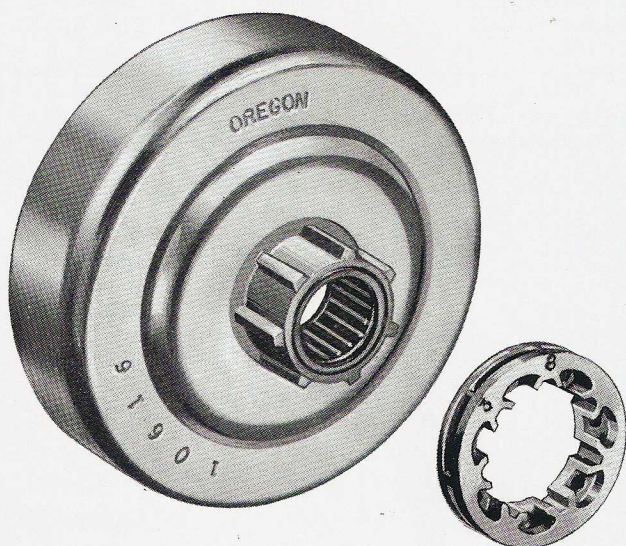

For continuing economical and dependable cutting, this standard equipment is recommended. Firms

undertaking a full maintenance service are invited to write for details of the 'Progress' saw chain grinder.

Brades Joiners' Hammers

Spear & Jackson now offer the famous 'Brades' range of hammers

A comprehensive range made in the Group's Sheffield factories to Brades' famous high standards of quality and reliability.

The forged heads, expertly heat treated and well finished, are carefully fitted to specially selected, kiln dried, pre-shrunk handles. The handles are all lacquered and oil impregnated where they fit into the head. All hammers are scientifically designed for perfect balance, and are fully tested before despatch.

Tyzack 3-Leg Slickbits and Tack Lifters

838 SLICKBITS

Faster than drill or brace bits

- * The Slickbit bores holes up to $1\frac{1}{4}$ " diameter in hard or soft woods—straight grain or end grain. Works easily and quickly without clogging.
- * Can be used with a standard $\frac{1}{4}$ " chuck power drill.
- * The bit is held in the shank by an Allen screw. Can be simply and swiftly changed with the key supplied.
- * Bits can be resharpened with a fine-cut three-square file, following the original bevel.
- * Suitable for plasterboard, hardboard, aluminium sheets and many of the special boards now used in the building and 'do-it-yourself' field.

Six bits—one each $\frac{1}{2}$ ", $\frac{5}{8}$ ", $\frac{3}{4}$ ", $\frac{7}{8}$ ", 1", $1\frac{1}{4}$ "—complete with shank and Allen key, in plastic wallet.

Code no. 08380. Price per set **14/6**

In boxes of five.

Tyzack 3-Leg Painters' Tools

Now the best painters' cutlery with unique Chrome-Armoured finish

- * Over twice the life.
- * Hard-chrome finish does not rust.
- * Hard-chrome provides low friction finish which inhibits build-up of putty and paint.

Independent testing of two chisel knives—one standard, the other hard-chromed—over a period of 6 hours at the Sheffield Testing Station revealed 55% less wear on the hard-chromed knife than on the other.

213 As above but with hand-holds.

Size	Code no.	Price each
36"×2"×1"	21336	73/-

Spirit Levels

- * Virtually unbreakable 'Plexiglas' acrylic plastic vials—accurate, clear and easy to read. Guaranteed for three years against shock and leakage.
- * Vertical vial pre-set—barrel shape allows reading whichever way the level is used.
- * Horizontal vial adjustable and luminous.
- * Plastic buffers for protection.
- * Supplied in hang-up polythene display/storage tube.

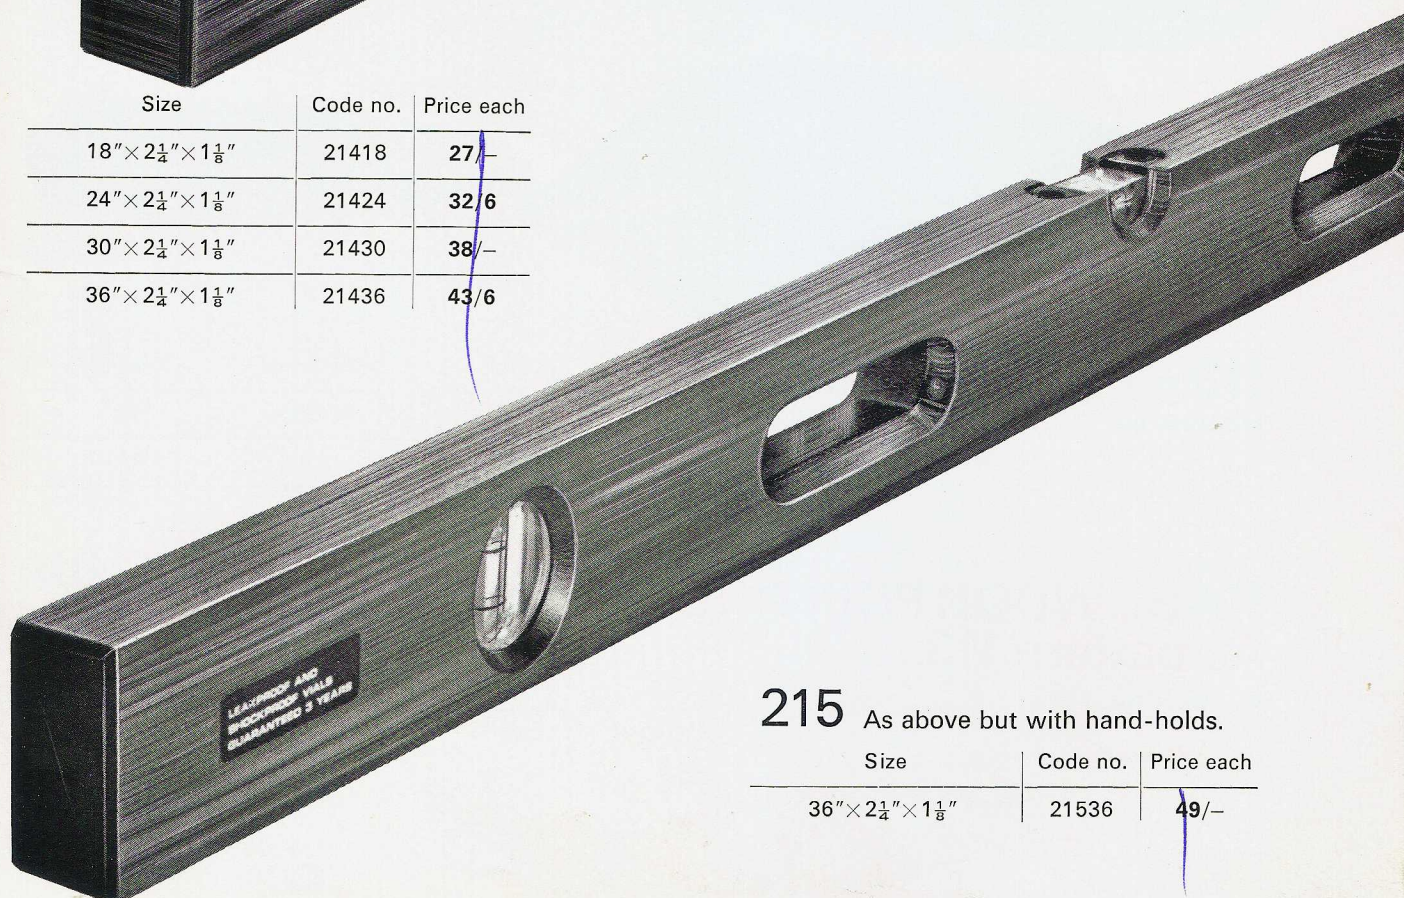

Selected by the Council of Industrial Design for the Design Index.

214 TEAK SPIRIT LEVEL

BRAND NEWS!

Spear & Jackson add 'Centurion' trowels to their range of builders' tools—now cater for every sector of the trowel market

Here's brand news that's good news for all profit-minded dealers. 'Centurion' trowels are now made and marketed by Spear & Jackson. And with that kind of backing they must go forward.

THE SAME GOOD QUALITY, YET DOWN IN PRICE!

'Centurion' trowels are made by completely different methods—specifically to meet the needs and pockets of jobbers and do-it-yourselfers. They are carefully assembled from the finest materials, have specially hardened and lacquered steel blades and beech

handles, are superbly finished for lasting satisfaction. At Spear & Jackson's new *lower* prices they undoubtedly offer the finest value-for-money in their class. 'Centurion' trowels are Design Centre approved. They'll soon be winning approval from users everywhere.

THE BEST OF ALL WORLDS

By adding the lower-priced 'Centurion' range to their Tyzack 3-Leg and WHS professional ranges, Spear & Jackson now cater for every sector of the trowel market. So can you.

MERCHANDISING PACKAGE DEAL

This compact sales-boosting merchandiser carries an assortment of trowels—brick, pointing, gauging, concreting and plastering—yet measures only 15" wide x 12" deep x 24" high and can be free-standing or fixed to wall or pegboard. It comes *free* with either of the orders indicated below.

Free dealer aids for better display and even bigger sales!

Make the most of this range of eye-catching display material. All robustly constructed and attractively designed to win even more sales for these fine tools. Order the pieces you require—and feature them prominently. Your customers will do the rest!

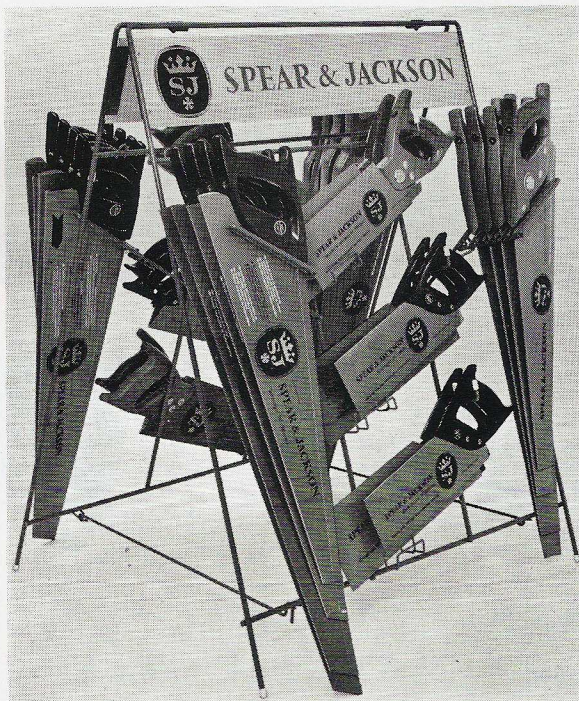

B20 Code no. 05700 **CIRCULAR SAW DISPENSER**

An attractive wire dispenser available with stock orders for 'Black Prince' circular saws. Together with the individual backing cards this compact unit forms a hard-selling free-standing display that carries six 5", six 6", three 8" and one 10" diameter saws. Stove-enamelled in white with red, gold and black printing.

B24 Code no. 01350 **CHISEL DISPENSER**

A handsome unit to show—and sell—the complete range of R.13 chisels. Free-standing, or can be secured to pegboard. Finished white with bold lettering in red, gold and black. Holds four chisels of each size. Available free, on application, with stock orders.

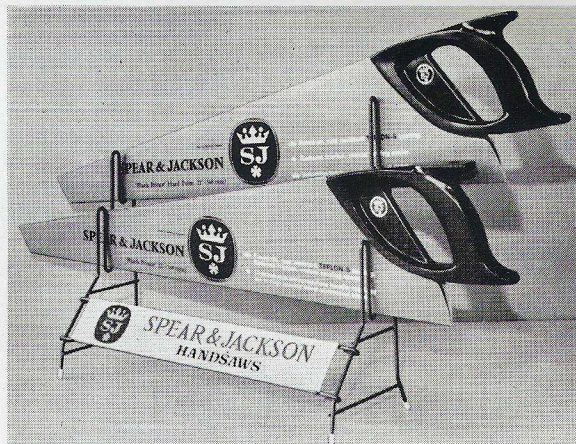

B18 Code no. 01800 WIRE SAW DISPLAY

For hanging on pegboard. Measures 36" high by 27½" wide, and displays eight handsaws and six tenon saws. Two units can be coupled to make a free-standing floor unit (as illustrated) to carry saws on both sides.

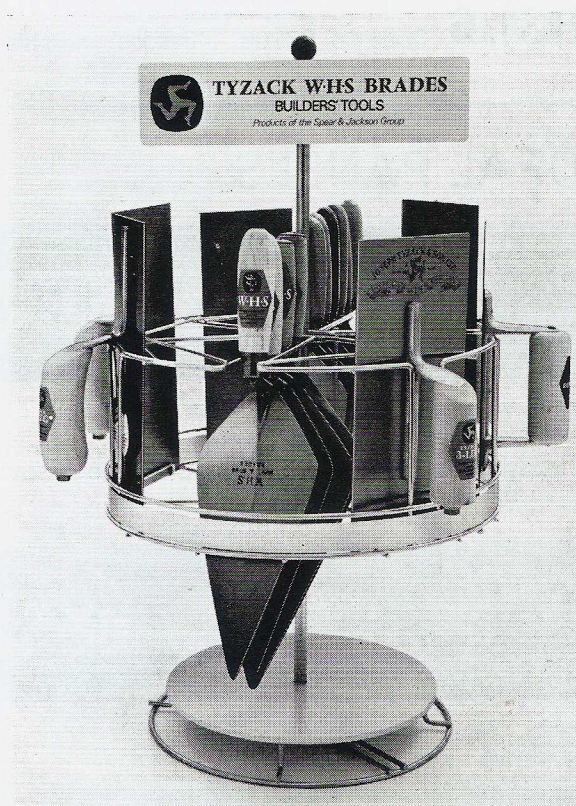

B25 Code no. 26900 HAMMER DISPENSER

Show off the qualities of Brades hammers in this distinctive new hanging dispenser. Designed to display claw, Warrington, engineers' or pin hammers —holds four hammers in each of three patterns or sizes. Available on request with orders for three dozen or more hammers.

B13 Code no. 01300 FOLDING WIRE DISPLAY

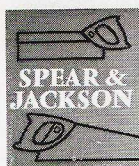

Holds two Spear & Jackson handsaws. Stove-enamelled in four colours. Designed for counter or window display.

B26 Code no. 13226 BUILDERS' TOOLS DISPLAY

A free-standing unit to hold plastering, brick and pointing trowels. With revolving display drum for easy selection. Free on request to stockists of Tyzack and Brades builders' tools.
